FREEDOM OF INFORMATION REQUEST – 595/17

Dear Sir/Madam

Your request for information has now been considered and the information requested is provided below.

Request/Response:

1. How much of your transport budget has been spent on air pollution work, or will be spent, for each year from 2010-11 to 2017-18.

   Answer: Air pollution in terms of Rutland County Council’s statutory monitoring requirements is undertaken as part a range of functions delivered by two officers. The cost of transport annually to carry out this work is not identifiable from other transport related costs.

2. How much of your public health budget has been spent on air pollution work for each year from 2010-11 to 2017-18?

   Answer: Not Applicable

3. If your air pollution work has not come under either the transport or public health budgets please list which budget line this came under and how much was spent for each year from 2010-11 to 2017-18 and which budget line this falls under?

   Answer: The costs attributable to fulfilling Rutland County Council’s pollution control monitoring function are estimated to be £1000 annually. The costs are not specifically broken down within the budget for the service due to it being integrated with other functions. The figure is therefore a rough estimate, with the level of resource and costs undertaking this area of work having remained consistent during the period of the current shared service arrangements (4 years), previous information not available.
