FREEDOM OF INFORMATION REQUEST – 685/17

Dear Sir/Madam

Your request for information has now been considered and the information requested is provided below.

Request:

I am currently writing a report on the benefits and effectiveness of proactively monitored CCTV cameras versus reactive retrieval.

The overarching objective of this report is to demonstrate to local businesses, police forces and the other community stakeholders the added value of such a system, and why more funds should be directed towards its upkeep in times of austerity

I understand that you may be very busy, but I was wondering if you wouldn’t mind quickly replying to this email with an approximate breakdown of how your CCTV control room is funded.

Response:

Answer:

The main CCTV networks within Rutland cover the centres of the two market towns.

These are monitored by a neighbouring local authority under a service level agreement, which provides monitoring for a defined 10 hours per week, with all of this time being outside of normal working/office hours.

This arrangement will cost approx. £3,600 as of 2017/18.

Partner contributions are as follows:
