FREEDOM OF INFORMATION REQUEST – 1428/18

Dear Sir/Madam

Your request for information has now been considered and the information requested is provided below.

Request/Response:

Thank you very much for your recent response to my information request (FOI 1361/18 - Attached)

In my request at #1 of the above request I had asked if there had been a validation error regarding planning application 0096/FUL because the ownership certificate declaration as published on the RCC planning web site had apparently not been signed or dated. Your response was that the application was signed and dated. In order that there is no confusion about this could you please answer the following question;

1. Why was the ownership declaration certificate B section of application 0096/FUL published on the RCC Planning website with the ownership declaration unsigned and undated? I enclose a copy of this document for consideration.

   Answer: There is a signed copy on our file, dated 22/3/2018. A signed copy would not be displayed on the web site for Data Protection purposes.

2. Referring again to my last FOI request your answer to my question (#3) with regard to the RCC Highways response to the amended number of glamping units and consequent traffic movements was that “The Highways Authority had confirmed that it has no objection to the amended scheme for three units using the different access”.

   In fact the Highways Authority's response to the amended application on 26/09/2018 refers to not objecting to five glamping units - not three. Could you please tell me why there is this disparity? I enclose a copy of the Highways response for your consideration.

   Answer: Since your previous FOI request, the Highway Authority has clarified/confirmed in writing that it has no objection to 3 units.
