

TRAILER RESTRICTIONS

Cottesmore Recycling Centre

New restrictions are being introduced to limit the size of tow trailers permitted on site at Cottesmore Recycling Centre.

From 1 October 2019, only those vehicles with trailers under 2 metres or 6.5 feet in length (not including trailer towing iron) will be allowed access to the site.

These restrictions are being brought in to reduce congestion and improve site safety, specifically because of the limited parking and turning space at Cottesmore.

These restrictions only apply to Cottesmore Recycling Centre and not to our larger North Luffenham site, which will continue to accept trailers of all sizes.

North Luffenham Recycling Centre
Willoughby Road, Morcott. LE15 9DW
