

## Site Allocations Assessment: Appendix D – Growth rate of settlements as a result of promoted residential sites

The figures used for the size of the existing settlement are the number of residential dwellings within the planned limits of development boundaries according to the LLPG address data which is updated on a quarterly basis by the Local Authority. There is one exception to this in Little Casterton, where the sites are adjacent to the town of Stamford in the neighbouring district of South Kesteven. For this comparison the 2001 census information on the number of households is used as the comparative LLPG data was not available.

Site	Settlement	Number of dwellings within existing Planned Limits of Development (apart from Little Casterton)	Indicative Capacity of Site	Percentage Growth Increase (Comparison of Indicative Capacity against existing number of dwellings within PLD (%))
SHELAA/BAE/04	Oakham with Barleythorpe	6379	8	0.13
