1. Introduction

- 1.1 This paper is supplementary to the full annual Five-year Housing Land Supply statement for the period 2022/23 – 2026/27 and provides an update to the supply situation based on the 9 month monitoring period 1st April 2022 – 31st December 2022. The full [statement](#) is available on the council’s website and was published in May 2022.

2. Local Housing Need & Housing Requirement

- 2.1 The calculation of housing need for Rutland is set out in detail in [the Five-year housing land supply paper](#) published in May 2022 and is not repeated in this update report as the calculation of need will not change within the monitoring year. The calculation is set out below for information.

Table 1: Five-year Requirement: Local Housing Need Calculation – 2022/23 – 2026/27

a	Annual Local Housing Need Figure	142	
b	Basic Five-year Local Housing Need Figure	710	a x 5
c	5% Buffer applied	35.5	5% of b
d	Total Five-year Requirement including 5% buffer	746	b + c (rounded up)
e	Annual Requirement	149	d / 5

- 2.2 Following the local housing need calculation, the Five-year Local Housing Need figure for Rutland required across the next Five-years from 2022/23 – 2026/27 including a 5% buffer is **746 dwellings**. Broken down into an annual requirement this equates to **149 dwellings per annum** over the next Five-years.
- 2.3 In the 9 months since the Five-year Supply Statement was published, a total of 69 new homes have been built in the County. 51 completions were on large sites and a net total of 18 completions were on small sites. Past completions over the whole Local Plan monitoring period from 2006 are shown in Appendix A.
- 2.4 The 69 homes which have been built between 1st April 2022 and 31st December 2022 have been deducted from the five-year supply by site in Tables B i) and B iii) in Appendix B to ensure that they are not double counted.

3. The Five-year Supply

3.1 In order to calculate the amount of land supply for housing across Rutland it is important to have a clear understanding of the sites that are available and deliverable. This nine-month update has reviewed all elements of housing land supply.

3.2 Monitoring shows that between 1st April 2022 – 31st December 2022 planning permission has been issued for the following:

- 5 new large sites for a total of 279 homes:
 - 2021/1423/MAO Land at Cold Overton Road, Langham for 50 homes
 - 2022/0741/PED prior approval of conversion of commercial building to 15 apartments at 1 Lands End Way, Oakham
 - 2021/0794/MAF Land off Uppingham Road, Oakham for 73 homes (02/11/22)
 - 2020/0942/OUT Land off Park Lane, Ketton for 75 homes (allowed on appeal 25/11/22)
 - 2021/1263/OUT Land near Stapleford Road, Whissendine for 66 homes (05/12/22)
- Reserved matter applications for 4 large sites
 - 2021/1151/RES 40 dwellings at Allotment Gardens Brooke Road, Oakham;
 - 2021/1334/RES 18 dwellings at Land north of Cold Overton Road, Langham;
 - 2022/0205/MAR 62 dwellings at land south of Braunston Road, Oakham; and
 - 2022/0296/RES 20 dwellings at Land South of Leicester Road Uppingham.

These sites were already included within the housing supply with outline consent. The issuing of Reserved Matters permission together with signed S106 agreements confirms the assumptions that these sites are expected to deliver within the 5 year period.

- Detailed consent for 3 allocated sites in Ketton: H7 Land at the Crescent (50 dwellings 2020/1262/MAF); H5 Land adjacent to Chater House (21 dwellings 2020/1263/MAF) and H6 Home Farm (15 dwellings 2020/1254/MAF)
- An additional 34 homes on small sites (net additional homes)

3.3 Small site windfalls continue to make a significant contribution to housing supply in Rutland and our five-year housing land supply calculation includes an allowance for small site windfall in years 3, 4 and 5. NPPF para.71 requires this to be supported by “compelling evidence that it will provide a reliable source of supply”. The [Small Site Windfall Study](#) provides this evidence. This paper was reviewed and updated in September 2022 to reflect evidence of past delivery rates from small site windfalls and the policy situation in respect of housing development (i.e. the application of the tilted balance in light of there being less than a 5 year housing land supply and the housing policies in the adopted local plan being considered out of date).

3.4 This study concludes that a slightly higher windfall rate of 25 homes per year in years 3, 4 & 5 is justified.

Sources of Five-year Supply

3.4 A breakdown of the supply is identified in Table 2 below. The table sets out the different sources of sites based on the scale of a site and whether they have planning permission in place.

3.5 The data that sits behind Table 2 is provided in Appendix B of this paper.

Table 2: Sources of Five-Year Supply

3.6 The assumptions used to determine supply and delivery are set out in the main Five-year Housing Land Supply statement located here [Housing land supply | Rutland County Council](#)

4. Rutland's Five-Year Supply

- 4.1 The housing requirement for Rutland has been identified using the Local Housing Need figure calculated in line with the [National Planning Practice Guidance \(PPG\)](#)
- 4.2 The Local Housing Need figure based on the standard methodology across the next Five-years from 2022/23 to 2026/27 including a 5% buffer is **746 dwellings**.
- 4.3 The supply of land for housing is set out in Table 2 above and the full and specific site data is included in Appendix B. **At 31 December 2022** there is a deliverable **supply of 896 dwellings**.
- 4.4 The results show that Rutland does have a sufficient supply of deliverable sites to meet the Five-year requirement of 746 dwellings and can demonstrate a **6.0 year supply** based on the Local Housing Need figure, these calculations are set out in Table 3 below.

Table 3: Rutland's Five-year Supply based on the Local Housing Need Figure

Need	a	Annual Local Housing Need Figure	142

5. Further Future Supply

- 5.1 In addition to the sites included in the supply calculation above, three additional planning applications for major housing development have been reported to the Council's Planning Committee and have a resolution to approve the application subject to S106 agreement. Negotiation of these agreements is on-going with an expectation that the S106 will be signed, and the planning decision issued before the end of the current monitoring year (31st March 2023).
- 5.2 One of the three sites (2019/0524/OUT Land north of Leicester Road, Uppingham) is already included (in part) in the five-year supply as an allocation.
- 5.3 The remaining two sites (Land at Greetham Quarry, Greetham for 30 homes and Land off Burley Road, Oakham for 213 homes) have the potential to deliver a total of 243 new homes. Although it is unlikely that these will all be delivered during the five-year period they are expected to begin delivery in the Five-year period 2023/24-2027/28 and

will therefore provide additional supply once the permissions have been issued. Details of the three sites and their expected delivery are set out below.
